1
2 During the period of 1939-1946 the following irrigation systems were built in the
3 Uzbekskaya SSR: the Greater Fergana Irrigation Canal im. Stalin (Bol'shoy Fer-
4 gana Kanal im. Stalina), South Fergana Canal (Yushnyy Ferganskiy Kanal) im.
5

6
7 Andreyev, the Northern Fergana Canal (Severnnyy Ferganskiy Kanal) im. Mikoyan,
8 the Sokh-Shakhimardanskiy Canal (Sokh-Shakhimardanskiy Kanal) the Great Zera-
9 vshanskiy Canal (Bol'shoy Zeravshanskiy Kanal), the Canal im. Lenin (Kanal im.
10 Lenina), the Pakhta Aral Canal (Pakhta-Aral Kanal), the Tashkent Canal (Tash-
11 kentskiy Kanal) im. Molotov and others. The Canal im. Kirov in the Golodnaya
12 Steppe was reconstructed; the Kampyr Ravatskaya Dam and the first section of the
13 Katta-Kurganskoye Reservoir (Katta-Kurganskoye Vodokhranilishche) were built.
14 The total volume of earthwork amounted to 135,000,000 cu m. As a result of this
15 work 550,000 ha of land were irrigated.
